Murphy, Paul
3Advance
1900 M St NW, Suite 311
Washington, DC

Dear Mr. Murphy,

I hope your day is going well! My name is Anuraag Yachamaneni, and I'm a Junior at Thomas Jefferson High School for Science and Technology. I am very interested in interning for 3Advance this Summer 2015. I really love how 3Advance has a wide array of projects it works on how a lot of its projects are related to sports. Coming from someone who really loves sports and tech, 3Advance seems like an ideal work place for me, where I can have fun not only creating cools apps, but also building them for causes I care about.

A little about me, like I said I am a junior at TJHSST in Alexandria, VA. I like to spend my free time going to Hackathons, reading about latest news in tech, and create my own web/mobile applications for my own use and for the general public. I also am currently the Co-President of the Startup club at my school called StartupTJ, where I help instill in students an interest in tech startups and teach students how to launch their own ventures. Currently, I am the Executive-Director for a high school Hackathon happening in the DC area called DCHacks and I have experience with raising money, networking with people, and leading a team. I think these experiences would make me a great candidate for you.

Please let me know if there's anything else you need from me. I look forward to hearing from you! I can be reached at 703-625-6646 and my email is hello@anuraag.me.

Best regards,

Anuraag Yachamaneni
